

## Feature Highlights

### Cash Float and Shift Report

An operator will perform the start of the day and enter the cash float details. A shift report can be printed anytime during the shift.

### Staff Clock In / Out

All staff clocks in / out are recorded for later reporting.

### Refunds and Cancellation

Spiral POS supports both full and partial void options. An operator can choose to enter a void reason before cancelling the item or a transaction.

### Deposits and Partial Payments

Spiral POS can be configured to accept partial payments and deposit for an open transaction.

### Multiple Kitchen Printers

Spiral POS can print a coffee order to a different printer and a sandwich order to a different printer

### Paperless Kitchen Options

Spiral POS can be configured to display kitchen orders on screen as well as print them on multiple printers.

### Deal of the day

Inventory and Sale Item prices can be configured to automatically switch based on the time of the day or day of the week.

### Deals and Combo Items

Spiral POS offers a flexible kit/combo item option where multiple items can be put together for a special deal.

### Touch Enabled POS Terminals

Each button on POS screen is configurable and can have different actions attached to it.
